

Module Title	Introduction to Multimedia and the Internet
Assignment Mode	Individual Assignment
Citation Format	APA
Marks	40 marks
Due Date	Refer to Canvas for Submission Due Date

Assignment Brief

You have been given the task of creating a website that will demonstrate your web design capabilities. You can choose any one topic from the following. If you are interested in showing your web design capabilities in other topics (not mentioned here), prior approval from the lecturer is needed.

1. Online Shopping
2. Hotel
3. Travel destinations
4. Sports news
5. Movie reviews
6. IT hardware / Mobile phones
7. etc: _____

Select any *one* of the above topics and create a website of at least 5 pages. Create at least FIVE (5) well designed web pages. Things to include in Website:

- HTML5
- CSS3
- Multimedia objects such as images, video and audio
- Web form
- Javascript

Note:

Web design must be done using HTML5, CSS and JavaScript only. Use of templates or any authoring tool will not be accepted. It will result in zero marks.
